UNIFORM AND POWDER OLD STYLES, ANYWAY

The fifty thousand uniforms which s the transport Sheridan is taking back to the mainland from the Philippines, which a cablegram from Manila stated had been sent forward on express orders from the secretary of war, are reported to be of obsolete styles which have accumulated and are useless for garrison use in the Philippines. Cap-tain Kinnison, quartermaster of the Sheridan, stated yesterday it was his opinion that the uniforms were old style and that the war department felt they could be used in the field by the army massed along the Mexican border. Cantain Kinsison did not estate roos.

army massed along the Mexican border. Captain Kinnison did not state positively that the entire fifty thousand uniforms were of obsolete patterns, but he stated that a large quantity of clothing had been ordered disposed of in Manila, the bids for which were not high enough. It was withdrawn from sale, and at this juncture the secretary of war may have decided that as the soldiers along the Maxican border would be rather rough on the up-to-date clothing issued to them. It would be a good place to wear out the obsolete styles.

Senator Judd, whose committee had prepared the amendments to the scenate bills, stated on the floor yester-day that he had looked over the house bills and found them already amended to correspond with the senate's ideas. Senator Baker is consistently voting anti on all the bills, his vote, however, being a solitary one. He had one com-panion on the no list when the first bill came up, but has been deserted. Awaiting Suits.

Meanwhile the sheriff, is patiently waiting the two suits, at least, which are to be filed against him. These are being brought by the two "witnesses" that Harry Lake errested on the Sierra

by mistake on the principal of:
'You are captured. Come,'
While the sheriff has had nothing to
do with the outrageous mistake he is being held responsible as Lake's superior officer. Lake, however, receives his orders, pay and inspiration from the city attorney's office and the sheriff never even knew that the wrong men had been arrested until he saw them hanging disconsolste around the police station. He is glad now that he didn't lock them up and make matters worse.

Need for Revenue.

E. Faxon Bisaop dwelt at some length on the great need of obtaining money for education and hospitals, and also that the Islands needed to expend more money to protect themselves from spidemics. Mr. Bishop called attention to the fact that the ploneers in the States took up their homesteads on undeveloped lands, and not on lands upon which the government or individuals had expended vast sums of money. He said that under the present law the result would be in a few years just the opposite of what was originally intendresult would be in a few years just the opposite of what was originally intended, for gradually the larger owners of property would absorb the small holders, and in a short time there would be no public developed lands and no revenue derived from them except in the form of taxes.

The question of constitutionality of Act 5 of the Session Laws of 1965, which was raised in Watson's demurrer, was answered in the affirmative by Judge Lymer and the demurrer overruled. The judge stated, however, while making the decision:

The legislature, after a few mild queries regarding the three bills given it for its consideration, is settling down to passing them as fast as noscountry and continually lowered the revenue which should be received by the government and for which now there is the most pressing need.

But that five made a lot of noise and gave some plausible arguments, and the fate of the bill was not decided until it had been stated positively that it did not effect a certain compon con-test conducted by an afternoon paper seeking to boost its circulation.

Representative Towse, who introduced the bill, opened up for the defense. Then Representative Marcallino replied with an attack, saying it was like the "holler" of the big boy trying to get out of the little boy all he could.

"The poor man has no credit in the big stores and pays cash for what he gets. But the rich mam has credit and when he pays gets a discount. This stamp system is simply the poor man's credit system and when he gets a green stamp, when he buys something, it is his discount. He pays for what he gets, but he gets something," added Marcallino, and he moved to table the bill, but lost.

GARDEN ISLAND ON QUINN'S SUNDAY BILL

Senator Quinn had red-hot coals of fire heaped on his head by the ministers in their discourses throughout the island last Sunday morning, as the result of his fathering a bill for Sinday theaters, reports the Kanai weekly. The public, however, while not entirely agreeing with such a bill, must admit that a law which permits a seminent domain to certain corporations. fire heaped on his head by the minmust admit that a law which permits a seamde resort to rent bathing suits and ball games, orientals to keep open doors, hotels to sell booze, and, might add, the street car cumpany to gather in hundreds of dollars on the Sabbath day, but which prohibits as amusement house from catering to the public, is, to may the least, decidedly in need of readjustment.
